MEDIA ROOM & HOME THEATER DESIGN

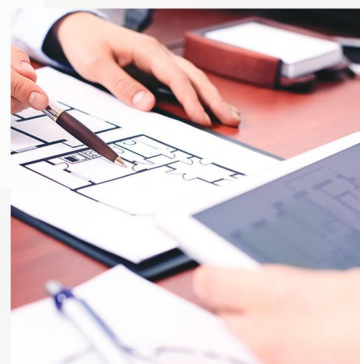

Wilshire Media Systems has been designing and installing dedicated home theaters and media rooms for decades. Our experience and passion enables us to push boundaries and create rooms that not only look beautiful, but sound and feel amazing. A properly-designed home theater or media room will quickly become a favorite family gathering place.

Our designers understand that no two rooms are alike. They are masters at creating one-of-a-kind home theaters and media rooms by combining great design, seating and acoustic treatment to produce a room with astonishing beauty and performance. Our goal is to not just create another room in your home, but to create your favorite room with the power to transport you wherever you want.
